CAD TEMPLATE LIBRARY VERSION 4.0 AVAILABLE
AS WEBSITE DOWNLOAD AND CD SET

Brecksville, OH—Hyson Products introduces an updated CAD Template Library, Version 4.0, which features gas spring, manifold cylinder, cam, and component drawings to assist in die design. In addition to a two-CD set available on request, the library can be downloaded directly from the company website at www.hysonproducts.com.

The CAD Template Library, Version 4.0, includes drawings of the Super Tanker® Series gas springs; Tanker® XP 200, 400 and 400HS gas springs; T2, T3 and T3T Series gas springs; T2SL Series stock lifter gas springs; Nitro-Dyne® XP Series manifold cylinders; Dyne-A-Cam® Series cams; LCF™ Force Manager™ Series gas springs; CS2 Series controllable gas springs; and components. Drawings are available in 2-D (DXF, DWG and IGES) and 3-D (Parasolid™, Step and IGES) formats. The CAD Template Library CD set also contains information on selecting the right system

for your application as well as recommendations for designing manifold systems. This same information is available on the website.

By completing the registration form included on the CAD Template Library CDs or by registering at the website ([ww.hysonproducts.com](http://www.hysonproducts.com)), users have access to the latest template information and files.

Hyson Products is a division of Associated Spring, a business unit of Barnes Group Inc. (NYSE:B). Hyson Products designs and manufactures Nitro-Dyne® XP manifold systems and accessories, Super Tanker® high performance gas springs with dynamic lubrication, T2 standard gas springs, T3 gas springs with the highest force and shortest height available today, the Dyne-A-Cam® Series of cams, and the DRAC® Series of delayed return manifolds in an ISO 9001:2000 certified facility.

Barnes Group Inc. (www.barnesgroupinc.com) is a diversified international manufacturer of precision metal components and assemblies and a distributor of industrial supplies, serving a wide range of markets and customers. Founded in 1857 and headquartered in Bristol, Connecticut, Barnes Group consists of three businesses with 2005 sales of \$1.1 billion: Barnes Distribution, an international, full-service distributor of maintenance, repair, operating and production supplies; Associated Spring, one of the world's largest manufacturers of precision mechanical and nitrogen gas springs and a global supplier of retaining rings, reed valves, shock discs, and

injection-molded plastic components; and Barnes Aerospace, a manufacturer and repairer of highly engineered assemblies and components for aircraft engines, airframes, and land-based industrial gas turbines. Over 6,500 dedicated employees at more than 60 locations worldwide contribute to Barnes Group Inc.'s success.
