FOR IMMEDIATE RELEASE
August 17, 2009

UPDATED BROCHURE AVAILABLE ON T3 SERIES GAS SPRINGS INCLUDES
NEW T3-20000 MODEL WITH FULL STROKE FORCE TO ALMOST 75,000 LBS.

Brecksville, OH—Hyson Products, a business of Barnes Group Inc., has issued updated literature on the T3 Series of nitrogen gas springs that provide the highest forces in small spaces to reduce cost per ton as much as 60%.

The 28-page brochure details the twelve models in the series including the new T3-20000 with a diameter of 7.67 inches, a contact force of 45,000 lbs., and a full stroke force of almost 75,000 lbs. Other features include a side port for easy hose connection, patented safety guide and rod, and upper and lower grooves for mounting flexibility. Product specifications and ordering options are also reviewed.

Hyson Products provides solutions for metal stampers with a broad array of products from advanced engineered systems including press cushions and delay manifolds to the Tanker[®]T and Tanker[®]S high force and high

performance gas springs, from the Dyne-A-Cam® Series of cams to controllable systems, all manufactured in an ISO 9001-2000 certified facility.

For additional information and the latest literature, contact Hyson Products, 10367 Brecksville Road, Brecksville, OH 44141, Telephone: 440-526-5900, Fax: 440-526-6807, Email: hyson@asbg.com, www.hysonproducts.com.
