BROCHURE ISSUED ON T3T SERIES

FROM THE HYSON FAMILY OF HIGHER FORCE GAS SPRINGS

Brecksville, OH—Hyson Products introduces literature on the newest member of the Hyson family of higher force gas springs, the T3T Series. The T3T Series offers the same force and diameter as the T3 Series but with other features including an SAE-4 port for use with standard full size hoses and compatibility with a variety of standard mounts.

The eight-page color brochure provides product specifications, dimensional data, mounting options, accessories and ordering information on each of the five models: T3T-1000, T3T-2400, T3T-4200, T3T-6600 and T3T-9500.

Hyson Products is a division of Associated Spring, a business unit of Barnes Group Inc. (NYSE:B) Hyson Products designs and manufactures Super Tanker® high performance gas springs, and T2 and T3 standard gas springs; Nitro-Dyne® XP manifold systems and

accessories; the Dyne-A-Cam® Series of cams, and the DRAC® Series of delayed return manifolds in an ISO 9001-2000 certified facility.

Barnes Group Inc. (www.barnesgroupinc.com) is a diversified international manufacturer of precision metal components and assemblies and a distributor of industrial supplies, serving a wide range of markets and customers. Founded in 1857 and headquartered in Bristol, Connecticut, Barnes Group consists of three businesses with 2005 sales of \$1.1 billion: Barnes Distribution, an international, full-service distributor of maintenance, repair, operating and production supplies; Associated Spring, one of the world's largest manufacturers of precision mechanical and nitrogen gas springs and a global supplier of retaining rings, reed valves, shock discs, and injection-molded plastic components; and Barnes Aerospace, a manufacturer and repairer of highly engineered assemblies and components for aircraft engines, airframes, and land-based industrial gas turbines. Over 6,000 dedicated employees at more than 60 locations worldwide contribute to Barnes Group Inc.'s success.
